

**PI TAU SIGMA OUTSTANDING AWARDS**  
**Louisiana Tech Tau Xi**  
**Louisiana Tech Pi Tau Sigma Members**

Our Pi Tau Sigma chapter will be in good standings at the conclusion of this year and has participated in numerous events that we believe qualify us for an outstanding award. We held two initiations this year, one in the winter quarter, and one in the spring quarter. The new officers were elected in the winter, and the new president attended the National Conference in March.

Our new chapter president, Hannah Clark, attended the 2016 National Convention at UCLA in Los Angeles, California. She participated in roll call, voting, the Fusion 360 modeling competition, tours, the career fair, UCLA PTS member initiation, and the closing ceremony featuring Virgin Galactic.

Our chapter was active in numerous activities this year. Those include:

**Mechanical Engineering Sophomore of the Year Award**

Our chapter asked professors to nominate the most deserving sophomores of their classes. Five candidates were interviewed by our officers, and our officers voted on the final winner. Ryan Jones received fifty dollars, a great resume booster, and his name on a plaque hanging in our engineering building.

**Take On Tech**

Our chapter dedicated five hours of service towards cleaning our engineering building. For this event, our members swept, dusted, mopped, wiped down walls, took out trash, organized, and helped anywhere they were needed.

**The Big Event**

Our chapter participated in a community-wide service event to help local residents around their houses. Thousands of volunteers gathered for the largest community service project of the year. The event included activities such as washing windows, raking yards, organizing storage sheds, and much more.

The Louisiana Tech Tau Xi chapter of Louisiana Tech University has gone above and beyond this year to continue and uphold the reputation of Pi Tau Sigma.
